Product code: SS0240-3096-51

Units covered: 500–520

This Learner Resource Pack offers a detailed and extensive breakdown of the range of theories and models that underpin different styles of leadership and management in Adult Care. It provides opportunities for learners to explore their own preferred ways of working, as well as alternatives that they may not have considered. In addition, they will review the impact of internal and external drivers on leadership and management in the sector.

The resources for each unit consist of easily digestible theory content, accompanied by Think and Reflect sections, Case Studies, Activities and a Bibliography and Further Reading suggestions. The Activities are designed to help embed and contextualise learning and provide opportunities for the generation of material for the Portfolio of Evidence (to be done with the agreement and support of the Assessor). Many Activities are linked to the Assessment Criteria for the units, others are designed to stretch and challenge thinking.
