Resources

This form-fillable PDF apprenticeship training manual aligns directly to the Bricklayer standards and provides coverage of all the key skills. It supports learners training to be bricklayers and can be saved electronically.

This manual provides learners with a range of practical tasks to apply their knowledge and skills in preparation for assessment.

The manual is designed to support formative learning, by allowing the learner to track their progress.

The tasks:

- incorporate the apprenticeship standards into on-site activities
- include working diagrams to support the learner and place the task in the context of an entire house build
- repeat skills and progress in difficulty, to consolidate learning and support development throughout the apprenticeship
- allow learning to be tracked through checklists, reflective self-assessment and tutor/trainer feedback.
